

Igor Paiva

Front End Developer

Energetic Front-End Developer with experience and passion for responsive website design. Proficient in HTML5, CSS3, jQuery, JavaScript and React; plus modern libraries and frameworks. I believe that great design is a result of the collaboration between designers, developers and stakeholders, whose combined experience and efforts come together to create great user experiences. As a developer, I aspire to be apart of a team that is oriented in this way, and look forward to share my knowledge and skill toward the concept and creation of sophisticated digital products.

WORK EXPERIENCE

Front End Developer

BestSpare Auto Parts - São Paulo – BR set/2018 - dez/2019

- Experience building performant & responsive Web Apps with great UI/UX
- Strong skills in HTML5, CSS3, Bootstrap, Gatsby, Javascript with jQuery
- React and React Native experience
- Proficient in GitHub
- Experience setting organization-wide frontend standards for component and style reuse.
- Comfortable working with the command line.
- Managed front-end development of client sites.
- Collaborated with back-end developers.
- Used Photoshop and Illustrator to create artwork
- Performed front-end development for all client projects.

Web Developer

BestSpare Auto Parts - São Paulo – BR apr/2018 - aug/2018

BestSpare Auto Parts e-commerce was a crucial experience in advancing my proficiency as a self-taught front-end developer. At BestSpare Auto Parts, I collaborated with a great team of developers as well as the creative director to see projects through from start to finish, often assisting with the layout and content creation for many products.

- Turn design pages and specific components into HTML, CSS and JavaScript
- Developed and maintained legacy applications
- Analyzed UI/UX design for responsive layout for improved usability

Project Manager

TM Solutions - São Paulo – BR oct/2008 - mar/2018

Expert at assigning and delegating tasks, completing projects under budget and before deadline. Exceeds clients' expectations and improves employee satisfaction.

Analysis, preparation, and implementation of infrastructure projects for large companies such as Petrobras, Ford, Chevrolet, Airport of São Paulo and Goodyear.

- Coordinated ideas of team members and factored them into the project's plan
- Defined scope and goals of new projects
- Developed metrics used to define goals and project completion
- Lead kickoff meetings and brainstorming sessions for Project
- Collaborated with team to factor the Client's needs into the goal plan
- Drafted the team charter to state team goals and responsibilities
